Self-Erecting, Self-Propelled, Under-Bridge Aerial Access Platforms Battlefield Equipment Rentals

The Terex® Hydra Platforms trailer-mounted model HP35-180 is a comprehensively equipped under-bridge access and work platform, mounted on a mobile trailer for versatility. Each Terex® Hydra Platforms trailer model features a patented Tower Separation System, which includes hydraulically adjustable cross-linking arms between the main outside vertical tower and the turntable sub-frame, mounted on the trailer. This allows operators to erect and extend the tower and the platform over pedestrian sidewalks and other barriers without restricting the under-bridge operations.

On all its trailer-mounted models, Terex Hydra Platforms offers standard Dual Side Hydraulic Outrigger Stabilizers, providing maximum stability and an added level of safety. It's all part of the commitment of Terex Hydra Platforms to provide the utmost in safety and quality to its customers.

TEREX HP35-180 HYDRA PLATFORM SPECIFICATIONS

Dimensions & Weight

Platform Length	32 ft (9,754 mm)
Platform Width	3 ft 6 in (1,067 mm)
Platform Weight Capacity	1,000 lb (455 kg)
Max. Lowering Depth	18 ft (5,486 mm)
Platform Rotation	180°
Tower Separation Width	7 ft 8 in (2,337 mm)
Unit Length	32 ft (9,754 mm)
Unit Width	8 ft 2 in (2,489 mm)
Unit Height (transport pos.)	10 ft 6 in (3,200 mm)
Total Weight (approximate)	17,200 lb (7,802 kg)
Hydraulic Pressure	2,800 psi

Features

- Two outboard hydraulic stabilizers
- Self-propelled by hydrostatic drive
- 5-minute, self-erecting in single lane
- Main hydraulic system; 18 HP V-twin gas engine with auto idle
- Auxiliary hydraulic backup system; motor and hydraulic pump
- Towers 5° over center swing
- Control panels on platform and deck
- Voice communication system; platform to deck
- Electric brakes standard

Ideal for all under-bridge projects:

- Inspections & Repairs
- Stripping operations
- Painting and sandblasting
- General maintenance
- Replacement and maintenance of bearings
- Installation and maintenance of under-bridge pipes and cables and more!

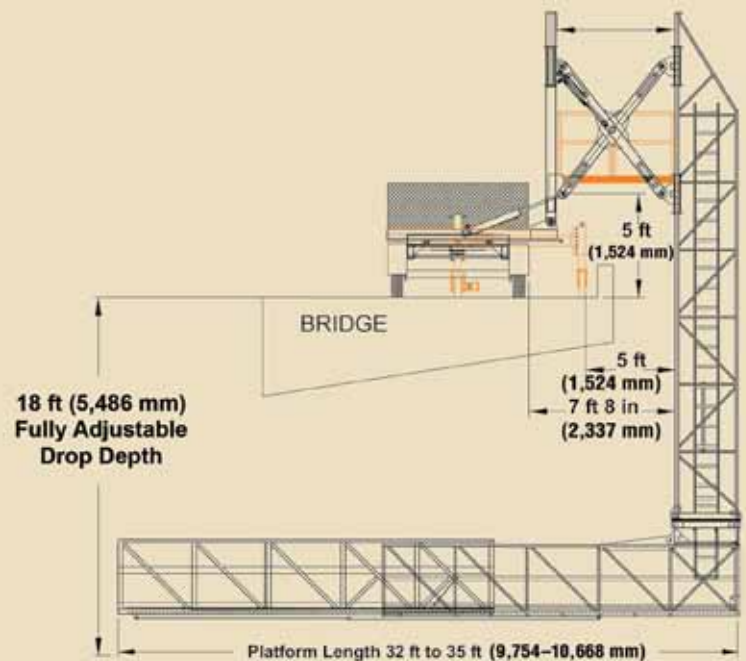

For additional platform lengths and model range of access platforms, please contact:

Kent Folkerson
Hydra Platform Specialist, Battlefield Equipment
Cell: (519) 501-6987

Features:

- 180° platform rotation
- Towers 5° over center swing
- Voice-activated communication system, platform to deck
- Self-erecting in single lane in 5 minutes
- Self-propelled, self-steering by hydrostatic drive
- Two outboard hydraulic stabilizers
- Patented Tower Separation System
- 1,000 lb (455 kg) platform capacity
- Electric brakes standard
- 32 ft (9,754 mm) platform length
- Meets all OSHA/ANSI/SIA safety codes A92.2/1990 + A92.8/1993
- Access crossover to tower remains horizontal at all times for personnel safety
